Environmental Statement

The purpose of FGH Security is Keeping People Safe.

As such, we recognise our corporate and social responsibility and are committed to carrying out our operation in an ecologically responsible manner to protect the environment from the impacts of our activities and continuously improve the eco-friendly management of our day-to-day activities.

We do this by working to 'The 5 R's' through which we make a conscious effort to consider the responsible management of our resources.

We take all reasonably practical measures to limit our impact such as the reduction of emissions and energy usage, sourcing recycled and sustainable materials and recycling waste and equipment. We strive to lower our carbon footprint through responsible travel, developments in technology and energy conscious office spaces.

We promote environmental awareness to our customers and team members and believe this benefits the overall well-being and economic health of the communities in which we operate. We prioritise partnerships with suppliers who share our commitment to environmental stewardship.

We diligently adhere to all applicable environmental laws, regulations and standards. We strive to go beyond compliance wherever possible by setting higher internal standards to reduce our environmental impact proactively.

Though the Directors have ultimate accountability for Environmental impact of the organisation, all team members have a responsibility within their own areas of work to embed the 5 R's culture organisation wide.

Peter Harrison
Managing Director

Ben Knott
Operations Director

Jessica Spencer
Shared Services Director

This policy statement summarises how the company operates and maintains its environmental systems and objectives to the requirements of ISO 14001 and is communicated to all our team members, customers, interested parties and the public. This policy statement is reviewed annually and amended if appropriate.
